

Passive Plus II Universal Strategic Lifestyle Profile

This investment's risk starts as:

Lower to medium risk

This means:

- you're prepared to take some risk
- there's the potential for reasonable long-term returns
- there may be some frequent but quite small changes in value

Please remember, the value of investments can go down as well as up, and may be worth less than what was paid in.

We reduce your risk towards retirement

You're in a lifestyle profile. In a nutshell, as you get closer to retirement, we'll automatically move your money into funds that are usually lower risk and are designed to get your investments to where they need to be when you retire.

Passive Plus II Universal Strategic Lifestyle Profile (U2PP)

Total annual fund charge

- Growth fund: 1.03%
- Fund moving from growth to lower risk: 1.03%
- Lower risk fund: 1.03%

Past performance is not a guide to future performance.

It has a mix of investments

Investments are affected in different ways by different factors. What's positive for one investment can be negative for another, and when one rises, another can fall.

Your diversification rating is 5

Source: Standard Life

Your diversification rating is 5, so your investments are spread across a range of investment types and countries.

Why can diversification be a good thing?

Having a mix of investments across different geographical locations and investment types can help to smooth returns, meaning the value should be less likely to change dramatically than if you were invested in a single location or type of investment.

However, if you're planning to access your pension savings soon, being diversified may not be a good thing, depending on how you plan to take your money.

It invests globally

UK	49.2%
North America	5.2%
Europe	2.1%
Japan	3.5%
Asia ex Japan	2.6%
Emerging markets	7.5%
Money market instruments	1.0%
Specialist & other	28.9%
