This presentation may contain certain “forward-looking statements” with respect to certain of Standard Life’s plans and its current goals and expectations relating to its future financial condition, performance, results, strategy and objectives. Statements containing the words “believes”, “intends”, “expects”, “plans”, “seeks” and “anticipates”, and words of similar meaning, are forward-looking. By their nature, all forward-looking statements involve risk and uncertainty because they relate to future events and circumstances which are beyond Standard Life’s control including among other things, UK domestic and global economic and business conditions, market related risks such as fluctuations in interest rates and exchange rates, and the performance of financial markets generally; the policies and actions of regulatory authorities, the impact of competition, inflation, and deflation; experience in particular with regard to mortality and morbidity trends, lapse rates and policy renewal rates; the timing, impact and other uncertainties of future acquisitions or combinations within relevant industries; and the impact of changes in capital, solvency or accounting standards, and tax and other legislation and regulations in the jurisdictions in which Standard Life and its affiliates operate. This may for example result in changes to assumptions used for determining results of operations or re-estimations of reserves for future policy benefits. As a result, Standard Life’s actual future financial condition, performance and results may differ materially from the plans, goals, and expectations set forth in Standard Life’s forward-looking statements. Standard Life undertakes no obligation to update the forward-looking statements contained in this presentation or any other forward-looking statements it may make.
2006 Financial summary

PVNBP Sales 47% to £14.3bn
PVNBP Margin 1.0% pts to 1.4%
EEV operating profit 55% to £614m
IFRS profit 272% to £540m
EEV cash generation £279m to £262m

Strong improvement in our financial performance
How we deliver value

Building valuable customer relationships with leading service and compelling propositions

- Creating capital efficient innovative products
- Opening new routes to markets
- Leveraging investment management expertise and performance
- Driving for operational excellence

Delivering shareholder value
Driving shareholder value is our objective

On track to achieve our return on embedded value target for 2007 of 9-10% - increasing thereafter
Trevor Matthews
Chief Executive, Standard Life Assurance Limited

Annual Premium Equivalent Progression in the UK Life and Pensions Market

Source: Company new business and preliminary results announcements
• Dramatic action in 2004 to transform our business
  – cut costs significantly
  – announced phasing out of benefits of mutuality
  – suspended obligations under the mortgage promise
  – introduced time barring for mortgage endowment claims, and
  – effectively withdrew from initial commission market for Individual and Group Pensions

• Introduced SIPP, a pensions wrap

• Developed vision for move to platforms
The value chain is changing

The traditional value chain is being broken down and rebuilt with new players emerging and existing players changing their roles.

- **Manufacturers**
  - Fund supermarkets offering Life and Pensions wrappers
  - Wrap potentially marginalises traditional providers

- **Technology players extending influence**

- **Asset Managers**

- **Distributors**

- **Advisers**
  - Increasing power of Distribution Groups
  - Providers securing access via investment

- **Consumers**

- **Platforms / Wrap Providers**
  - Network / Service Co

- **Portal/Back Office**
In addition to the traditional risk-based and packaged investment markets, a new platform market is developing.

- **Risk Based Products***
  - Flow of existing funds to platforms
  - Some inclusion of risk-based products on platforms

- **Packaged Investments**
  - Flow of new business to platforms

**Current size of platform market = £54bn FUA (Nov 2006 – Mintel)**

**Estimated c£1.5bn APE (£15bn FUA) 2006**

**5% CAGR (2002 – 2006)**
- Protection £1.2bn APE
- Annuity £1.0bn APE (2006)

**8% CAGR (2002 – 2006)**
- £10.8bn APE (2006)

* Risk Based Products exclude mortgage and healthcare market figures
Sources: ABI/ Whichplatform.com/individual company announcements/ Mintel
How platforms benefit customers

- Platforms offer real benefits to customers
  - access to wide range of investment alternatives
  - up to date total portfolio view via the internet
  - convenience
  - efficiency
  - richer involvement and experience
  - opportunity to focus on longer term aims, structures and asset allocations
How platforms benefit advisers

- Platforms offer real benefits to advisers
  - increased efficiency
  - deeper client adviser relationships
  - ongoing revenue based on funds under advice
  - increased enterprise value
  - alignment of interests with their clients
Platforms deepen relationships

- Platforms will be key to accessing distribution
- Platforms should help increase dependency of advisers, with tools and services
- Platforms should result in better persistency of advisers and customers

– Selling products
– Product provider
– Product focussed

To

– Profit
– Nurturing and developing relationships
– Service provider
– Customer focussed
The SIPP opportunity

- SIPP – first mover advantage
- Created a new market space
- High market growth potential
- Confident we can grow with market
- Confident we can maintain SIPP margins
Further opportunities

• Group SIPP marries innovation of SIPP with our proven solid market leading Group Pensions infrastructure

• Group SIPP high market growth potential

• Wrap, third wave, emerging steadily
Standard Life well placed

• To lead and shape emerging platform market

• For ongoing profitable growth
The SIPP opportunity
The SIPP opportunity

- Standard Life’s success in the SIPP market is difficult to replicate
- High levels of growth are sustainable
- Higher profit margins are sustainable
- We are leveraging this success in other markets
What is a SIPP?

- A platform to access all the services you need to accumulate funds and then to draw income and tax free cash in retirement

- Introduced into the UK market in 1989

- A Personal Pension with a wide range of investments
  - Insured funds
  - Mutual funds
  - Stocks and shares
  - Hedge funds, futures and options
  - Cash accounts
  - Commercial property

- Commonly used as a post-retirement vehicle to take tax free cash and income drawdown from age 50, or to defer retirement to age 75

- Post A-Day, it is used as an accumulation vehicle to consolidate pensions investments in the years running up to retirement
Some history….

Some history….  

UK Pension Market Volumes 1998 – 2006 (APE)  

Source: ABI
Some history……

- We identified the opportunities and carried out extensive customer and adviser research on the SIPP market in 2001 and 2002.

We learnt:

- Significant demand existed for this product

- To succeed we needed:
  - Excellent customer service
  - Flexible drawdown options and investment flexibility
  - Competitive and fair charges
  - Superior sales support
  - Robust and integrated technology
Strategic rationale

- Significant customer demand existed
- Market underdeveloped and lacked innovation
- Strategic fit
- Opportunity to improve margins in pensions arena
- Launched a major project to build SIPP in 2002
  - Innovative design
  - In-house capability
  - Substantial capital spend
Leading the market in growth and service

Capital Efficient Remuneration Design

- Initial commission
  - Recouped by equal charge from customer funds
- Funded initial commission
  - Each 1% of commission to IFA recouped by customer charge of 0.2% p.a. of fund for 6 yrs, with uncollected charges recouped if contract terminates
- Fees
- Ongoing fund based commission
  - Per cent of assets per annum
  - Recouped by equal charge from customer funds

We do not pay unfunded commission
At 31 March 2007 we had 30,800 customers with an average case size of £172,000.
71% of our SIPP customers are in our target market (Gilt-edged Lifestyle, Mid-life Affluence and Flourishing Families)

Source: Standard Life
Index Score shows the extent to which our customer base differs from the UK population. For example, gilt edged lifestyles are 7 times more prevalent in our customer base than in the general market

UBS
Sustainable Margin
Margin outlook

- All EEV expense assumptions are based on the actual costs
- Highest margins currently earned on insured funds
- We expect margins on non-insured business to increase as costs fall due to:
  - operational leverage
  - self investment gaining critical mass
  - enhancements to on-line servicing and automation

![FUM for each SIPP Administrator](chart)

- 31-Jan-05: £12m
- 31-Dec-06: £16m
- 31-Mar-07: £18m
Margin outlook

- Margins are sensitive to:
  - average age
  - expenses
  - persistency
  - case size

- Mitigated by:
  - commission & charge design
  - product flexibility
  - difficulty in transferring once in drawdown

- The risk of competitors capturing our leading position remains low. Currently there is no pressure on charges.

- New investment options and guarantees will enable higher margins to be generated.
Future opportunities
Leveraging SIPP across the Group

- Post Retirement Market
- Corporate Market
- International
  - Ireland
  - Other markets

SIPP is scalable and adaptable to other markets
Market outlook – high growth potential

• At end 2006, 145,000 customers have a SIPP, with £35bn assets under management

• Based on population segmentation, we estimate a potential target market of 3m to 7m customers

• For this population we expect 15% to 20% penetration over the next 5 years. This is based on current penetration rates:
  - Pensions Approx 40%
  - Investments Approx 75%

• Therefore we expect over 500,000 SIPPs in the UK market with in excess of £100bn assets under management by 2011

• Future premium income from new premiums & transfers
  - 2.9m people have liquid assets above £100,000
  - Funds of £460bn in personal pensions, and £880bn in employer managed funds

Notes: 1 Money Management Survey April 2007. Not all providers disclosed. 2 Standard Life & Experian 3 Citigroup 4 ABI
The post retirement market

• This market is large. In 2006:
  - £9.1bn funds moved into annuities
  - £2.6bn funds moved into drawdown

• Legislation restricts this market to either annuity purchase or drawdown. Both these options have weaknesses:
  - Annuities have no investment upside, or benefit on early death
  - Drawdown passes all longevity risk to the customer
There is a market need for a 3rd way

Research has been undertaken and we are actively lobbying HMT to enable innovation in this space

SIPP is the natural vehicle to deliver new innovative post retirement solutions

Retirement planning advice will be required
The SIPP opportunity

• Standard Life’s success in the SIPP market is difficult to replicate

• High levels of growth are sustainable

• Higher profit margins are sustainable

• We are leveraging this success in other markets
Your questions
The Group SIPP opportunity
The Group Pensions opportunity

- We believe we offer the best defined contribution (DC) proposition in the UK
- We have strong pricing discipline and normally command a premium price
- Group SIPP offers us the potential for sustained profitable growth
Our DC proposition

Operational Vision

We will retain and grow our existing business and attract new clients through the provision of market-leading service at low cost.

How do we know we're achieving it?

Top of Peer Group in Corporate Monitor & Greenwich annual Benchmarking of DC Plans.

How do we achieve it?

Process – Relentless focus on process improvement.
Platform – Efficiencies of a single platform.
People – UK based Pensions Specialists, average of 10 years experience.

Good service is cost efficient service
• 37,000 DC Schemes

• 1.1m Scheme Members - 38% increase since Jan ’04 (800k)

• £14bn Funds under management - 100% increase since Jan ’04 (£7bn)

• 450 Staff - 35% decrease since Jan ’04 (720)
Great service - a key differentiator

• Wide ranging client base:
  - 43 of FTSE 100 companies, 35% of FTSE 250
  - Global Corporations
  - Major Professional Partnerships

• Leveraging existing client relationships - Defined Benefit (DB) closures
  - “From toehold to foothold”
Technology at the core

Single platform

- Everyone uses same underlying applications/data
  - employer
  - employee
  - adviser
  - Standard Life staff

- Existing clients use today’s technology.

Agile software development

- Single, integrated team of IT & pensions professionals, co-located.
- Iterative development approach leads to much shorter delivery times.

Effective IT Financial Services and Overall Project Winners 2006

FTRC eee-excellence rating - 1st place 2 years running

Financial Adviser 5 Star Service Awards - 11 years running

Professional Pensions DC Provider of the Year 2007
“Standard Life have clearly invested a significant amount of money in the development of your systems to ensure that they are as simple and easy to use as possible.”

“The submission of our payments schedule was straightforward and we had constant access to support if required (which it wasn’t).”

“The switch to Standard Life has allowed us to increase our employer pension contributions at no cost to Hasbro. Prior to the switch to the new scheme we employed an administrator spending half their time on pension administration. Now, one person spends no more than three hours a month on pension administration.”

Grant Foden,
European Compensation Director,
Hasbro Europe
Fifty reference clients from a wide range of industries and sectors
Strong pricing discipline

- We have introduced a sustainable commission model with GSIPP
- We do not pay unfunded commission on any new business
- We have a rigorous client underwriting process
- Our clients are prepared to pay a premium price
- We have a streamlined process for upgrading existing schemes

Increasing weighting of GSIPP new business sales (PVNBP basis)
Why the market is ready for GSIPP

- Move from DB to DC now impacting higher earners
- Demand for drawdown
- Full concurrency post A-day
- Excitement for SIPP amongst high net worth (HNW) members
- Disillusionment with pension choices offered by employers
Group SIPP – Potential for Growth

- First major player to market in January 2006
- Combines SIPP capability with our industrial strength DC platform
- Wide range of applications:
  - One plan for all employees
  - Replacement AVC
  - “Top Hat” scheme
  - Bonus Waiver Plan
  - Share Save roll-over
- Drawdown Revolution
- Future proofed against Personal Accounts
Interview with Simon Hemmings, ICAP
The Group Pensions opportunity

• We believe we offer the best DC proposition in the UK

• We have strong pricing discipline and normally command a premium price

• Group SIPP offers us the potential for sustained growth
Your questions
The Wrap opportunity
Geoff Towers
CEO Standard Life Savings Limited

Nick Blake
National Sales Manager - Wrap
Standard Life

**is forward thinking:**
- today’s market is multi segmented, requiring multiple offerings from multiple data sources: (i.e. baby boomers & their advisers are demanding new services to meet the retirement challenge)

**understands:**
- their customers & their advisers & the demands being made by evolving market segments
- the need to continually prove & refine our customer offerings

**is experiencing strong revenue growth:**
- in its offering to the evolving asset servicing market segment without cannibalising its more traditional markets
Projected growth in Wrap assets in the UK

By 2008, assets held within ‘wrap like’ services will grow to around £150bn

External Data I.e. Fund Manager
What do advisers tell us?

“Wrap services add value by simplifying information & powering the client relationship”

- One data source removes complexity of multiple systems
  - “no more copying and pasting”

- Enjoy having confidence in one consistent standard of data
  - “I can trust that the data is in sync”

- One source enables efficiencies
  - “I only need to train my staff on one system”

- Substantial cost savings for their business
  - “touch of a button reporting”

- Richer client experience leads to greater share of wallet
  - “I now have 10 great client meetings per week instead of 3 poor ones”

- Supports the trend to ‘trail based’ revenue model & enhanced adviser business valuation
  - “building financial stability into the business”
What do clients tell us?

“I feel like I am in control & receiving advice on my financial position”

• They like “single view”
  – “What have I got? How is it doing?”

• They have a desire to know where they are
  – “I’m not worried about health in retirement, I’m worried about my wealth in retirement”

• They want to be involved
  – “I want to feel part of my outcome”

• They want a “trusted adviser”
  – “but I need a professional pilot”
What’s important to distributors choosing Wrap?

- Engaging with a wrap services provider is a major decision for distributors

  - There will **only be a few wrap providers** – post proliferation/consolidation cycle

  - Picking a **sustainable platform** is important but tricky (the betamax factor)

  - The winning providers must be able to **service a variety of models** from the same platform

  - The proposition has to **support distributors “independence”**

  - **Distributors desire partnership** but resist unbreakable ties

The real meaning of **Partnership**
Essential components of a Wrap provider

• A tried and tested technology supplier
  - But equally, if not more, important:
• Wrap Customer Centre & adviser support
• Product choice & coverage
• Adviser revenue options
• Systems integration capability
• Development capability

Wrap services are reliant on core competencies that go beyond just software
Standard Life’s response

Standard Life has moved early to secure ‘hearts and minds’ of the IFA customer base

• By demonstrating how our core competencies support Wrap
  - Capital, Security, Trust and Brand
• By offering tangible “change” support, not just technology

Evidencing our commitment to ongoing development

• Not a set & forget scenario; develop fast and learn as you go
• 151 enhancements released, many more to follow

Profitability for Wrap services

3 Key Drivers

Penetration
When advisers adopt Standard Life Wrap service they tend to substantially increase flow of business to Standard Life
- **proof point** – high volumes post Wrap adoption from previous low volume adviser firms – Top 30 firms – 263% increase*

Persistency
Customer service proposition (holistic advice) & adviser revenue model (recurring trail style) drives lower adviser and product churn
- **proof point** – early days customer feedback and no loss of AUM

Pool size
Wrap services offer customers a compelling reason to place all their investment with a single adviser & wrap provider. (Single client view & large fund discounts at wrap (not product) level.
- **proof point** – IFAs reporting a “drag factor” of 3 times

Live Wrap system
The benefits of Wrap

- Enriching the adviser/customer relationship
- Improving efficiency and profitability
- Controlling business risk
- Improving embedded value
Next stages

• Consolidate key accounts
  - Demonstration of various customer presentation models based on experience from overseas markets has proved very popular

• Wider rollout to IFA market
  - Current engagement has focused on high value bespoke firms. Be ready to move to standard adviser models for broader IFA market

• Maintain leading edge proposition and industry leadership
  - Scaleable Wrap customer centre functionality
  - Wider tax, protection and lending functionality
  - Improved interfaces, adviser prompts & customer engagement

• Broaden distributor base beyond IFAs
  - Corporate Wrap
  - Bancassurers
  - International
The Wrap opportunity

Standard Life

is forward thinking:
  • today’s market is multi segmented, requiring multiple offerings from multiple data sources: (i.e. baby boomers & their advisers are demanding new services to meet the retirement challenge)

understands:
  • their customers & their advisers & the demands being made by evolving market segments
  • the need to continually prove & refine our customer offerings

is experiencing strong revenue growth:
  • in its offering to the evolving asset servicing market segment without cannibalising its more traditional markets

  - Confident we can maintain margins
The Platform Opportunity
Appendices
Speaker biographies

Trevor Matthews, Chief Executive, Standard Life Assurance Limited

Trevor Matthews, MA, FIA, FIAA, ASA, an Australian, graduated from Macquarie University, Sydney, in 1972 with a BA in Actuarial Studies. He rose through the ranks at Legal & General in Australia to become Chief Actuary, then Managing Director. In 1996 he joined the National Australia Bank as General Manager of Personal Financial Services in charge of retail banking and bancassurance in Australia. Trevor held the Presidency of the Institute of Actuaries in Australia in its centenary year in 1997. He moved to Manulife in Canada in 1998 to be Executive Vice President of Canadian Operations and Chairman of Manulife Bank. In 2001 Trevor transferred to Japan to be President and Chief Executive Officer of the Manulife business there. In July 2004 Trevor joined Standard Life where he has overseen the transformation of the UK Life and Pensions business.

Sandy Crombie, Group Chief Executive, Standard Life

Sandy Crombie joined Standard Life in 1966 as an actuarial student. He held a wide number of positions within the Company before his appointment as Group Chief Executive in January 2004. This included a spell as General Manager (Systems) between 1985 – 1988 where he was responsible for the development of Standard Life’s IT platform. He was later appointed as Chief Executive of Standard Life Investments (SLI), a position he held from 1998 to January 2004. During this time SLI grew its total funds under management from £63Bn to £87Bn, with third party funds under management growing significantly from £5Bn to over £15Bn. Since becoming Group Chief Executive he has led the Company through a strategic review as well as the demutualisation and IPO. Concurrently he has overseen a significant turnaround in the financial performance of the Company.
Barry O’Dwyer, Managing Director, Marketing

Barry is an actuary and has worked for Standard Life since 1988. He is responsible for the development, pricing and promotion of Standard Life’s life assurance, retirement planning, corporate pensions and retail investment products in the UK. Prior to his appointment as Managing Director, Marketing in 2006, Barry was responsible for the marketing of Standard Life’s pensions product range for 5 years, a period which saw the Group move away from low-margin Stakeholder pensions to focus on more profitable SIPP products where Standard Life has established a market leading position.

John Gill, Managing Director – Customer Service

John Gill was appointed Managing Director, Customer Service in August 2006. He is responsible for the customer service provided to Standard Life Assurance Limited’s 4.5 million customers. John has spent his entire career of 20 years with Standard Life. From 2003 to 2006 he was Managing Director, Finance in UK & Europe Life & Pensions. From 1998 to 2003 he was Finance Director of Standard Life Bank. Prior to this he fulfilled a wide variety of roles for Standard Life in the UK and internationally including three years based in Montreal. John joined Standard Life in 1986 after graduating in Mathematics from Edinburgh University and qualified as an Actuary in 1990.
Garry Morrison, Customer Service Director, Group Pensions

Garry has been with Standard Life for over 27 years, in a variety of Sales and Customer Service roles, both in the UK and in Canada. His current role involves the management of Standard Life’s group pensions business, a market in which the company is a major player. In pursuit of providing market leading service at low cost, Garry has championed the development and deployment of e-commerce solutions to clients.

Gordon Thomson, Account Relationship Manager, Group Pensions

Gordon has been with Standard Life for over 9 years and has worked in a variety of roles within Sales and Customer Services. In his current role as Account Relationship Manager, Gordon is aligned to some of our top introducers of DC business including IFA’s and Corporate Benefit Consultants.
Nick Blake, National Sales Manager for Wrap

Nick is the National Sales Manager for Wrap. He has worked on the project since inception in 2004 after 20 years in Intermediary Sales at Standard Life. Nick heads a team of Wrap specialists tasked with embedding our Wrap into Intermediary firms.

Geoff Towers, Chief Executive, Standard Life Savings Ltd

Geoff heads Standard Life’s growing platform business. Geoff heads a service focussed team that delivers not only the day to day running of our platform business but also ensures that our business remains state of the art for our distributors. Before Standard Life, Geoff spent seven years at Barclays. After running the bank's International Fund division, he spent time with Barclays Global Investors before becoming their Life and Pensions director. He oversaw Barclays’ move from single tie to multi-tie and has wide experience of a range of distribution models. His particular interests are in understanding customer behaviour - what really drives penetration and persistency in financial advice. He started his career with Citibank where his fifteen years included roles as Retail Funds Director for Europe and Asia and as Chief Administration Officer for Citibank Global Asset Management. He has also worked for the high net worth advisory firms of Sagitta and Edmond de Rothschild. Geoff holds a masters degree from Cambridge.
