

# Important fund name change for Standard Life Investments and Aberdeen Asset Management UK funds

## Briefing note

### Background

The change is a result of the merger of Standard Life Investments and Aberdeen Asset Management in 2017 and will reflect the creation of the new brand identity Aberdeen Standard Investments (“ASI”).

The change means that Standard Life Investments, SLI or Aberdeen will be replaced with “ASI” as a new fund name prefix. This should make things consistent and easier for investors.

You don’t need to do anything, but we wanted to let you know about the change of fund names.
